**Navigating Judicial Bypass**

If you are under the age of 18 and seeking an abortion in Massachusetts, the law requires you to obtain consent from one parent. However, if you cannot obtain parental consent, you may go to Massachusetts Superior Court and receive permission from a judge. This process is called judicial bypass, and it is free and confidential. For more information on the judicial bypass process, [click here](https://www.prochoice.org).
Many court processes are being put off because of the COVID-19 pandemic. However, judicial bypass proceedings ARE still occurring, often via phone or videoconferencing to minimize social contact. For more information on navigating judicial bypass during the COVID-19 pandemic, contact the Patient Navigation Program at (617) 616-1636. The Patient Navigation Program is free and confidential.
